

Bootstrap

- `p-5` padding 5
- `py-5` padding on the y axis 5
- `col-lg-12` takes up whole page width when viewing on a large screen (pages are formatted into 12 columns regardless of viewport)
- `col-md-6` takes up 6 columns at a medium breakpoint, and `col-sm-6` would be the same on a small breakpoint
- `btn` button
